SECUNORM 610 XDR WITH HOLSTER

NO. 610102

70% of original size

Dirt protection
The SECUNORM 610 XDR's open design has several benefits. Dust and other particles won't stick and moveable parts stay moveable. The lever and blade retraction features then continue to function even under the most difficult conditions.

Stainless steel blade
TRAPEZOID BLADE NO. 160099 is ideal for single-layer film and paper bags. Stronger materials with increased cutting resistance can also be cut quickly and safely. 2-times usable blade.

Flexible fastening
Fasten the HOLSTER 610 XDR to your belt or trouser pocket using the clip. Or you can use the optional holder to mount it at your workplace. The holster and knife feature eyelets for secure fastening.

Ergonomic working
The HOLSTER 610 XDR can be worn on the right or left. The knife only requires insertion with the head facing downwards. The holster angle is adjustable to make handling as easy and comfortable as possible.

Metal detectable
When used in sensitive sectors, such as the food industry, disruptions from contamination must be avoided. The plastic of the knife and holster is therefore metal detectable. Both products are also easy to clean.

Bag opener and holster. Two that belong together.

The SECUNORM 610 XDR is the first universal bag opener that cuts efficiently AND safely. Use it to open sacks of any type and thickness, and any content. „XDR“ means eXtra Dirt Resistant. The HOLSTER 610 XDR is the perfect companion to the SECUNORM 610 XDR safety knife – and just like the latter, it is easy to clean and metal detectable. Buy both as a set. This way you have your SECUNORM 610 XDR safely stored and always to hand.

PRODUCT FEATURES

Technical features

	High safety		Safer blade change (with magnet)

	NO. 160060 0.63 mm, rounded blade tip, stainless
	NO. 98 0.63 mm

Certificates and awards (SECUNORM 610 XDR)

Application

Safety technology

Automatic blade retraction – a high degree of safety

The SECUNORM 610 XDR is equipped with automatic blade retraction: as soon as you release the lever, the blade disappears into the handle – and it stays there too. This provides a high degree of safety from cut injuries.

THE PERFECT FIT FOR ALL.
DOES THE PERFECT JOB.

SECUNORM 610 XDR WITH HOLSTER

- › Squeeze-grip knife with large cutting depth
- › For any bagged goods
- › Dirt resistant and metal detectable
- › Automatic blade retraction
- › Holster as a perfect addition
