SECUMAX VISICUT

NO. 47012

Original size

No risk

The SECUMAX VISICUT is a disposable knife with an injected blade. That's reassuring. Your customers will not come into contact with it, neither when they are cutting or at a blade change because there isn't one.

Large surface

It's not just the surface of the cutting tool required for safe guiding that is large. So too is the space for your advertising message which is then sure to have the required impact.

Long, pointed nose

Why the extra long and pointed nose in the SECUMAX VISICUT? Because you can place it particularly well in the spaces in between. The cutting material is also led to the blade in a much more reliable way.

For any hand

The SECUMAX VISICUT is lightweight and practical. It is so practical that you will enjoy working longer with it no matter whether you are right or left handed – because this cutting tool is always the perfect match.

Ideally placed

An eyelet on the SECUMAX VISICUT means it can always be kept in an easy to find place. It also fits in any wallet – just like a real business card.

Your visiting card. With a blade.

As fragile as the SECUMAX VISICUT may appear, it is a really sharp cutting tool. And a popular advertiser too. If you look closely, it is like a business card with an in-built quality blade. So why not also your new business card? Your name, logo and your claim printed on it would always be there when your customers, friends and partners open their letters with it.

PRODUCT FEATURES

Technical features
