

SAFETY POSTER INSTRUCTIONS FOR THE SAFE HANDLING OF YOUR CUTTING TOOL

martor

SECUPRO MARTEGO

USAGE

To engage the blade, unlock the safety knife and **squeeze the lever**. Now you can cut.

For best results, cut plastic strapping band **diagonally** (at a 45° angle).

Use the underside of the knife head as a supporting surface to **work ergonomically** and efficiently.

To prevent unintentional blade activation, always **lock the safety knife** by pressing downwards on the lock symbol.

BLADE CHANGE

Lock your cutting tool and pull back the small **black blade-change button**.

Swing the lever out of the handle and flip open the blade cover.

Now you can either **rotate or replace the blade**. Please close the blade cover again.

Finally, push the lever back into the handle until you **hear it click into place**.

Please note: To ensure your product always functions flawlessly, regularly remove any impurities. For additional safety, we recommend wearing gloves.

PROTECTION OF USER

The blade immediately retracts into the handle the moment cutting ceases. Even when the lever is **still being squeezed**.

PROTECTION OF GOODS

An appropriately **small cutting depth** serves to protect your goods.

DISPOSAL

Your **SAFEBOX** is the best place to store **used blades**.

When the **SAFEBOX** is full, **empty all contents** into your **USED BLADE CONTAINER**.
